

# OUTPUT GROUP 1

Land, Sea and Natural Resource Management support services.

## Key Performance Indicators

KPI 1: Efficient and effective processing of natural resource management plans, proposals and programs.

Anthropology: 13 instances of input into such processing, including, for example: a sacred site survey for a national park plan of management; a traditional owner identification (TOID) for consultations associated with bush fire mitigation measures; a TOID towards the rehabilitation of culturally important springs near Santa Teresa; anthropological advice and/or TOIDs re feral animal control, waterhole fencing and rare animal research; and a work area/sacred site clearance for gully restoration following severe erosion.

KPI 2: Timely and effective control of access to Aboriginal land commensurate with cultural and heritage values.

Permits for Entry: 896 (work, visitors etc)

Mining Permits: 505 (all mining employees, contractors, visitors etc)

Transit Permits: 2,003

Tour Company: 82
