## THE 2012 LINE UP

**THE TEMPER TRAP > HILLTOP HOODS > BOY & BEAR > THE JEZABELS > DRAPHT >**

**360 > STONEFIELD > CALLING ALL CARS > REDCOATS > LOCAL ACTS**

### THE TEMPER TRAP

The ARIA award winning Australian indie rock band, will be releasing their new self titled album 'The Temper Trap' on 18 May, kick starting an international tour including Darwin, Australia.

The new album was recorded at the famed Sound Factory in Los Angeles, with producer Tony Hoffer (Beck, M83, Phoenix). The record will be the band's first as a newly-expanded five-piece outfit following the permanent addition of Joseph Greer on keyboard and guitar.

'The Temper Trap' is the follow up to 2009's debut album 'Conditions'. Featuring the singles Science of Fear, Fader, Love Lost and Sweet Disposition – the latter of which spent more than six months in the UK singles chart – the album was one of the breakthrough successes of the year and has now been certified Gold two-times over in the UK, selling over 800,000 copies worldwide. At the ARIA Music Awards of 2010, The Temper Trap won 'Best Group' for their album *Conditions* and 'Most Popular Australian Single' for "Sweet Disposition".

The Temper Trap is Dougy Mandagi, Jonathon Aherne, Toby Dundas, Lorenzo Sillitto & Joseph Greer.

### HILLTOP HOODS

While Australian Hip Hop continues to break new ground, there is only one act synonymous with the term ground-breaking. Within a genre that is growing at an exponential rate, Adelaide's Hilltop Hoods will always remain leaders.

This was evident from the reaction to the crew's album 'State of the Art', the biggest selling Australian Hip Hop album of all time. Not only did it hold the number one spot for two weeks, it won two ARIA's and turned out to be a multi-platinum monster. MC's Suffa and Pressure continued their art of weaving tales of everyday life into razor sharp musicality, while DJ Debris remained the backbone of the band's formidable live show. An album so big, so fresh and so well executed 'State of the Art' transformed the perception of Hip Hop in Australia.

The group continue to move forward at light speed without ever looking back, and their new album 'Drinking From the Sun' is no exception. The first single 'I Love It', featuring the amazing vocal talents of Sia, has been released to widespread acclaim and has already reached double platinum status.
