

provided some proof in this Chamber as to why you could make that allegation. You cannot provide, and did not provide, one iota of proof. All the member for Wanguri did today, and what he does every time he comes into this Chamber, is spew forth crap, spew forth crap in this Chamber.

Ms MARTIN: A point of Order, Mr Speaker!

Mr SPEAKER: There is no point of order.

Mr BURKE: And hope that some of it will get picked up by the media. It takes a backbencher, who has experience in this sphere and who I am particularly proud of today, to stand up behind the minister and to put the record straight. She showed very clearly that not only do we have a Leader of the Opposition who has no integrity at all, but we have a member for Wanguri who is rapidly in training to show not the slightest sense of integrity, not the slightest sense of respect for this Chamber, not the slightest interest in the integrity of the people who represent the Nurses Registration Board, not the slightest semblance of interest in the residents of Tracy Nursing Home. They try to suggest that allegations by staff that were made three years ago are somehow rampant in that facility at the moment. He goes further and makes allegations against the current Chief Minister and a previous health minister to suggest that we are ourselves did not act to intervene on an issue which it was totally inappropriate for any government minister to intervene directly. Once again, we have seen the time wasted in this Chamber.

Mr Speaker, I move the motion be put so that we can get on to the real business of this House.

Mr SPEAKER: The question is that the motion be put.
